

# Tiger LED Oyster Ceiling Light

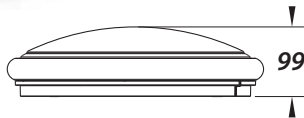

Energy-efficient, round LED light fitting in place of round T8 fluorescent light.

20W LED comparable to 34W round fluorescent fitting, reducing power consumption by 40%.

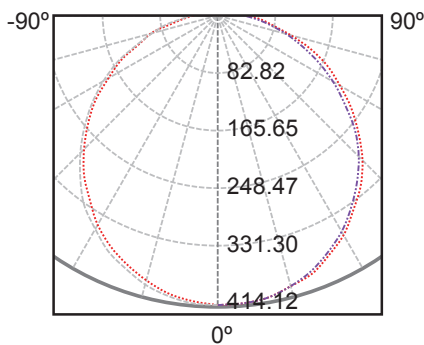

**NEW**

14in / 358mm diameter.

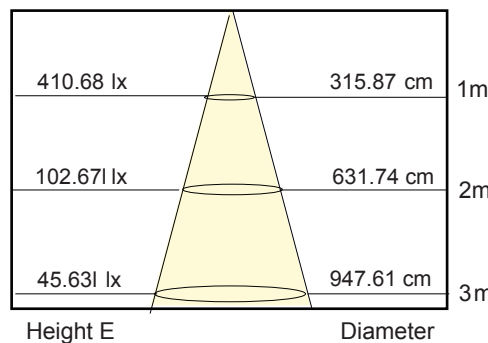

Excellent, uniform light quality, with comparable brightness to conventional fluoro.

### Light Distribution Curve:

### Lux Distance Curve:

Beam Angle of C30 plane: 115.30

### Bright, non-flicker LED light output

- Excellent, evenly diffused light with minimum light loss.
- Instant on - no flickering starts.

### Outstanding energy efficiency

- Reduces power consumption by up to 40% compared to round T8 fluoro.

### Brighter, longer - zero maintenance

- Maintains brightness for 35,000+ hours.

### Insect-proof & IP54 rated for outdoor usage

- Resists water and insect intrusion.

### Environmentally superior

- No mercury, no glass. 100% recyclable.

### Applications

General residential and commercial applications, including corridors, landings, walkways, facilities rooms, service areas, kitchens, etc.

### Technical parameters

|                                 |                                 |
|---------------------------------|---------------------------------|
| Product code                    | OYSTER                          |
| Power consumption               | 20W                             |
| Fluorescent T8 tube equivalent  | 32W T8 fluorescent light output |
| Lumen output                    | 1,300 lm                        |
| Colour temperature              | Daylight                        |
| Colour rendering index (CRI)    | >70                             |
| Input voltage                   | 220/240V, 50/60Hz               |
| Composition - diffuser / casing | PMMA - white matt finish / ABS  |
| Type of LED                     | SSL Class Low Power 3020 LEDs   |
| Service life                    | 35,000+hours                    |
